Some are gases, others are solid, and a few are liquid.

Dewhurst, H.

This person declared the Infinite to be an originating principle and element

The influence of physical chemistry on the development of chemistry in the United States began with American students who studied under a number of German chemists, most notably the Nobel Prize winner, Wilhelm Ostwald. We have determined that the temples shall be immediately closed in all cities, and access to Chemistry forbidden to all, so that permission for further offending may be refused to those who are lost.

Newman, William R.

A great number of men join in building a house or ship, in rearing a city, in framing a nation. After his death, this has been misattributed to Albert Einstein.
