You already recently rated this item. With so many social challenges facing our world, trying to effect change feels daunting. Otto Scharmer and Katrin Kaufer ask, why do we collectively create results nobody wants?

ClausOttoScharmer;KatrinKaufer.Theecologicaldividemanifestsinsymp Financial collapse, climate change, resource depletion, and a growing gap between rich and poor are but a few of the signs. Other notes. It is a self-reflective shift that allows the whole system to see itself and to act.

Createlists,bibliographiesandreviews:or.On rejecting the axiomatic structure of the market theory Hasse Ekstedt and Angelo Fusari analyse the concept of growth and uncertainty with respect to a more realistic modelling of man, The book also addresses central political problems and their potential solutions, including permanent unemployment, distribution of income, the interaction of real and financial growth, money and the credit .
