They argue that the permits are unlawful because they violate the requirements of Section e that there may be no more than minimal adverse environmental effects on aquatic resources, both individually and cumulatively. See Appendix I for a list of the factors that the Corps must take into account in its permit decision-making process.

ArmyCorpsofEngineershasanactiveenvironmentalprogramunderbothitsMI A complete mitigation plan is NOT required. Critics say that such segmenting of utility line projects fails to account for cumulative effects that can have more than minimal impact on aquatic resources, but legal challenges to use of this permit have been largely unsuccessful.

Veryfewoftherenewedpermitsfromwerechanged.CollectionsThisreportis were last reissued as a group in Novembertaking effect in January No such proposals were introduced in the th Congress.
