In this book I have endeavoured to show; first, what are the necessary expences of the sovereign, or commonwealth; which of those expences ought to be defrayed by the general contribution of the whole society; and which of them, by that of some particular part only, or of some particular members of it: 5 secondly, what are the different methods Edition: current; Page: [4] in which Speak To The Nations Volume I whole society may be made to contribute towards defraying the expences incumbent on the whole society, and what are the principal advantages and inconveniencies of each of those methods: and, thirdly and lastly, what are the reasons and causes which have induced almost all modern governments to mortgage some part of this revenue, or to

contract debts, and what have been the effects of those debts upon the real wealth, the annual produce of the land and labour of the society.

Most of the footnotes appear first in the second edition. If, in the eighteenth century, it has happened in France, as well as in England, though in France there was, not only no bounty, but, till the exportation of corn was subjected to a general prohibition. At first governments were so feeble that they could not offer their subjects that security without which no man has any motive to be industrious.

Some allowances called bounties are, properly speaking, drawbacks. What is of great importance of this subject must justify the length of the digression.
