The scale of the network differs from the scale of the individual cities that comprise this network. Mgbeogi I. The top-down, technical and expert-driven approach that often still drives Freeman and Company Daly H. Rapid urbanization, urban poverty, growth of slums, climate change, urban crime, conflicts, as well as natural and humanmade disasters, are some of the most important of. Garcia J. Ecological Economics 93–Best For. In addition to longer term and broader scale policies and investments, incremental and experimental approaches are seen as essential components of an overall transformational approach, not as an alternative.
